Ex parte Quayle

This application is in condition for allowance except for the following formal matters:

The drawings are objected to because there are two separate drawings both labeled as Fig. 12B. A proposed drawing correction marked in red and a formal sheet of drawing is required.

The specification is objected to because it does not agree with the drawings. Applicant's amendments to the specification in Paper No. 12, September 12, 2002, have not been entered because they do not comply with Rule 1.121. With respect to these amendments, it is noted that the statement of amendment to the specification on page 2 of Paper No. 12 does not agree with the amendments as shown on the attached "substitute" sheets. The actual amendments as shown on the sheets are correct with the exception of the change on page 21 that refers to Fig. 6, it should refer to Fig. 6H. Applicant must resubmit these amendments in the proper format for entry. Further the specification is objected to because it also refers to two Figs. 12B. When the drawings are corrected the specification must also be corrected. Further, the specification on page 16 refers to Fig. 5, however, the drawings show only Fig. 5A, Fig. 5B and Fig. 5C.

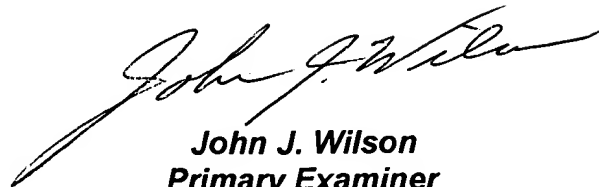

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
